Sean, agreed. We would provide them feedback on what samples to run and locations to revisit.

Thanks,

Thanks Howard.

Davis, For the file and as discussed, I just wanted to note that I don't think we should approve these individually, nor in aggregate until we get the bigger picture towards the end of the event. Giving them feedback on what archived samples to run based on this anomaly however seems entirely appropriate.

Thank you.

One of the 18 anomaly forms that EPA has reviewed.
